### DETAILED ACTION

It is noted that claim 10 is not specifically included in the following Election/Restriction.

Claim 10 is directed to non-statutory subject matter.

#### *Election/Restriction*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a flavored foodstuff, classified in class 426, subclass 535.
- II. Claims 5-7, drawn to a process for imparting a savory flavor, classified in class 426, subclass 535.
- III. Claims 8 and 9, drawn to a flavoring composition for foodstuffs, classified in class 426, subclass 535.
- IV. Claims 11 and 12, drawn to a process for preparing a compound, classified in class 426, subclass 7.

The inventions are distinct, each from the other because of the following reasons:

Inventions III and IV are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process.

Art Unit: 1761

Inventions I and II-IV and Inventions II and III-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions and effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
